

Attack-One Staff Qualifications

Attack-One is staffed with public safety professionals who have dedicated their lives to protecting and serving their community. All Attack-One personnel are trained to agency standards meeting those established by the NWCG.

All Attack-One personnel receive training in 100 and 200 level courses at the minimum. In addition to the classroom and field instruction, every employee must pass the Work Capacity Test each year. Attack-One has a complete training record program that is kept in an IQS format for each employee and is available for agency inspection upon written request. All Attack-One personnel carry a picture identification card with the position the person is qualified. The ID card is issued for each calendar year.

Previously holding positions with municipal, county and government agencies, the staff at Attack-One brings a wealth of knowledge and experience to their positions and through their instruction.

Equipment Inventory

Attack-One's complete inventory of equipment includes:

- three Type 6 Wildland Engines
- one Mack CH613 Transport
- one John Deere 450 Dozer with Mathis Fire Plow
- one GT-18 XP Gyro-Trac

Attack-One Fire Management Services

Attack-One Fire Management Services began operation in 1998 with its primary focus on wildland fire suppression. As of 2004, Attack-One personnel have responded to nearly 50 Wildland Fire Incidents throughout the United States providing various types of equipment and also providing overhead personnel.

In the fall of 1999, Attack-One entered into a partnership with Fire Control and Disaster Management, Inc. (FCDM) to assist with their prescribed fire program. As of 2004, Attack-One personnel have assisted FCDM in prescribed burning nearly 100,000 acres averaging more than 50 prescribed burns a year for multiple clients.
